

## World Leader

We've produced a system that we haven't seen matched anywhere in the world.

Whereas most companies give a two-year guarantee, we're so proud of the new benchmark performance we've set we offer you the option of:

A 20-year service guarantee:

-  **NO odour**
-  **NO hassle**
-  **NO ongoing replacement costs for pumps and blowers**
-  **NO annoying alarms**
-  **NO call out fees**
-  **JUST consistent high quality performance.**

**If you're not satisfied with our technology and service package we'll remove the system and give you your money back.**

## 10 Compelling Reasons to Choose BioLytx™:

1. Costs 90% less to run than an aerated treatment system
2. .... annual service
3. It is so reliable we offer the option of a 20 year guarantee
4. .... hazardous chemicals, such as chlorine
5. Is resilient to household chemicals
6. Is the most compact system available
7. As it is so compact, it is easier to transport and install
8. Unlike a number of systems, it .....
9. It can be used to upgrade septic
10. It loves food scraps, so also goes well with an In-Sink-Erator

## A Strong Track Record

BioLytx™ has invested more than \$3 million to refine its patented treatment process and engineer it to fit into a neat compact package.

Many prestigious and discerning clients in New Zealand, Australia and South Africa already enjoy the benefits of the BioLytx™ Filtration for households and on a larger scale for Golf Course Estates, Eco-Resorts and Five Star Hotels.

Whether you need to save and recycle water from just one house or a whole town, BioLytx™ can help. We supply the highest performing decentralized water and sanitation equipment and services yet devised.

*BioLytx™ has the most compact, high quality treatment system in the world. This makes transport and installation cheaper and easier.*
