

**DRAFT LANDSCAPE SIGNIFICANCE MAP - PART 1**  
**Management of Significant Landscapes in the Gippsland Coastal Region**

We are seeking your feedback as to what are the most significant coastal landscapes in Gippsland. The landscapes shown on this map are a first go, based on places mentioned to people who responded to our community questionnaire in April, places identified in field surveys and information from maps, as well as landscapes listed for significant features in previous studies or formal lists (e.g. Register of the National Estate).

# Appendix VII

Please write or draw your comments on this map and fill in the question sheet on the back of this brochure. Then send this brochure back to Planisphere (160 Johnston Street, FITZROY 3065) before 19th August 2005.
